

## **WORKSHOP MITOHEALTH 16/11 2011 'ROLE OF THE INTESTINE IN HEALTH AND DISEASE'**

**Kemicentrum, Lunds Universitetet, Meeting room C**

### **Consortium program, Parallel sessions:**

- 10.00-11.30 a) Mobility 2012, planning of publications and future collaboration  
b) Management Group Meeting

11.30-12:15 **Lunch**

### **Workshop - Scientific program**

12.20-13.00 **Gunnar C Hansson:** The Sahlgrenska Academy, Univ. of Gothenburg  
**Mucins and inflammation**

13.00-13.40 **Velmurugesan Arulampalam:** Dept. of Microbiology, Tumor and Cell Biology, Karolinska Institutet  
**Gut flora, Toll-like receptors and nuclear receptors in innate immunity in large intestine**

13.40-14.00 Coffee break

14.00-14.40 **Frida Fåk:** Sahlgrenska Center for Cardiovascular and Metabolic Research, Sahlgrenska Univ. Hospital, Gothenburg  
**Microbial regulation of the metabolic syndrome**

14.40-15.30 **Åke Nilsson:** Gastroenterology Lab, Biomedical Center, Lund University  
**Role of sphingolipids and other lipids in gut in inflammation and carcinogenesis**

15.30-15.50 Coffee break

15.50-16.30 **Jesper T. Troelsen:** Dept. of Science, Systems and Models, Roskilde University  
**Mapping of HNF-4 $\alpha$  and CDX2 target genes in the intestine**

16.30-17.10 **Thi Ai Diep:** Dept. of Pharmacology and Pharmacotherapy, Univ. of Copenhagen  
**Intestinal N-acylethanolamines in regulation of food intake and signals from the intestine to the brain**

The workshop starting at 12:20 is free of charge, but due to a restricted number of delegates, registration should be sent to: [post.mitohealth@med.uib.no](mailto:post.mitohealth@med.uib.no) or [ingunn.wergeland@med.uib.no](mailto:ingunn.wergeland@med.uib.no)
